We finally get a safty tool to use 24/7 and commercial radio wants to take it away. If they provided a 24/7 service also, i could support them in their effort to remove the compitation. It is so nice to have road and weather on demand 24/7, instead of only about four hours a day, at their profitable best time. NO, keep xm road reports to help roadways moving, NOT bottled up in a traffic jam.
